我通过写生进入绘画，用一些简单的静物提供一个基本框架，本能地快速地去协调写生对象，媒介工具与感受。它们融合在一起，伴随过程中的反馈，引导，推进，深入，像一次即兴的演奏，有意外，有启发。

I like sketching from still life, and in this way I get the hang of drawing. Still life provides me a basic structure so that I could coordinate with the objects, media and my feelings spontaneously in a very short time, and they mixed together, along with the in depth feedbacks, guidance, propulsion during the whole process, it's more like an improvisation, sometimes with accident, sometimes with inspiration.
